**SIGILA**

Low consumption and low noise level axial exhaust domestic fan with timer and humidity sensor

- The duct is connected to the fan exhaust flange through a clamp.
- Fixed to the wall by self-tapping screws.
- Suitable for ceiling mounting.

**MANUFACTURING FEATURES**

- Casing and impeller made of high-quality durable ABS plastic, UV resistant.
- Insect screen.
- SIGILA MOTION fans are equipped with a backdraft damper, regulated timer and motion sensor with the sensitivity area from 1 to 4m and the detection angle up to 100º.
- Protection rating IP 34.
- Low consumption motor designed for continuous operation and requires no maintenance. It guarantees a silent operation.
- Motor equipped with overheating protection.

FENESO
Axial window fan for exhaust ventilation

MANUFACTURING FEATURES
- Coasing and impeller made of high quality durable ABS plastic, UV resistant.
- The impeller design makes the fan efficiency high and the life long service.
- Equipped with a thermal actuator that provides smooth opening and shutting of automatic louver shutter for air back flow preventing.
- Equipped with overheating protection.
- Optional timer version.

LARUS
Axial fan for exhaust ventilation with backdraft damper

APPLICATIONS
- Ultra thin front panel (8mm).
- Protection rating IP 34.
- Air flow capacity up to 290m³/h.
- Sound level at 6 m dB (A) 45.
- Motor saving.
- Fan and motor specially designed for a silent operating.

LIBELLA
Axial fan with automatic louver shutter for exhaust ventilation

APPLICATIONS
- Temperature sensor for adjusting bends.
- Protection rating IP 44.
- Air flow capacity up to 290m³/h.
- Sound level at 6 m dB (A) 45.

LIBELLUM
Low cost axial fan

MANUFACTURING FEATURES
- Domestic fan designed for exhaust ventilation.
- The fan shows high capacity (95m³/h) and low level of noise 33dB(A).
- The cheaper fan is designed for connecting to AC 230V 50 Hz network.
- Fan case is made of ABS plastic.
